PROFESSIONAL SUMMARY

Results-driven Senior Power BI Developer with 8+ years of BI and data analytics experience. Expert in Power BI, DAX, SQL Server, SSIS, ETL design, and advanced data modeling (Star/Snowflake schemas). Proven ability to translate complex business requirements into scalable dashboards and enterprise reporting solutions. Recipient of the 'High Flyer' award at Freedom Mortgage for outstanding BI contributions.

CORE TECHNICAL SKILLS

BI & Visualization: Power BI, DAX, Power Query, Power Pivot, Tableau, WebFocus, Paginated Reports

Database & ETL: SQL Server, T-SQL, PL/SQL, SSIS, ETL Design, Data Warehousing

Data Modeling: Star Schema, Snowflake Schema, Dimensional Modeling, KPI Dashboards

Other: Python, Azure, Power Platform, Agile/Scrum, Technical Documentation

PROFESSIONAL EXPERIENCE

Senior Power BI Developer | Freelance, Remote

Feb 2024 – Present

- Designed and deployed custom Power BI, Tableau, and SQL dashboards with advanced DAX calculations and Power Query transformations for enterprise clients.
- Built ETL pipelines using SSIS and SQL scripts to integrate disparate data sources into unified reporting models (Star/Snowflake schemas).
- Collaborated with stakeholders to gather requirements and delivered paginated reports and geospatial KPI dashboards aligned with business goals.
- Optimized SQL queries and data models, improving report performance and data retrieval speed by up to 40%.

Business Intelligence Developer | Freedom Mortgage Inc., Cherry Hill, NJ

Jan 2018 – Dec 2023

- Led end-to-end development of Power BI and SQL-based dashboards providing executive-level KPI insights and real-time business reporting.
- Implemented SQL indexing, query optimization, and ETL best practices, significantly reducing data processing times across enterprise pipelines.
- Mentored junior BI developers on Power BI best practices, DAX authoring, and Agile delivery workflows.
- Partnered with cross-functional teams to define data models and reporting standards; managed deployment, security access, and production migrations.
- Received the company's prestigious 'High Flyer' award for outstanding contributions to organizational BI capabilities.

Data Analyst / Tableau Developer | American Mountinvest Holding Company, Bala Cynwyd, PA

Oct 2016 – Dec 2017

- Developed real-time Tableau and WebFocus dashboards using SQL-driven data models, enabling data-driven decision-making across business units.
- Automated routine reporting with SQL scripts, reducing manual effort and improving data accuracy and accessibility.

Business Intelligence Developer | TMG Health Inc., Jessup, PA

Jul 2015 – Oct 2016

- Led data mining and ETL initiatives using SQL to extract, transform, and load large volumes of healthcare data for stakeholder reporting.
- Collaborated with UAT and development teams to validate SQL-based solutions, ensuring data accuracy and production reliability.

PORTFOLIO PROJECTS (Power BI)

Insurance Fraud Analytics Dashboard

- Developed an interactive Power BI dashboard to identify fraud patterns and high-risk insurance claims.
- Built DAX measures to analyze fraud rate, claim amount, and claim frequency.

- Created geographic visualizations to identify fraud hotspots; designed executive KPI dashboards and drill-through reports.
- Delivered actionable insights to support fraud investigation and risk management.

Retail Sales & Customer Analytics Dashboard

- Built an executive dashboard to analyze sales performance, customer behavior, and product profitability.
- Developed star schema data models and advanced DAX measures; created dynamic KPI cards, drill-through reports, and Top-N product analysis.
- Implemented interactive slicers, bookmarks, and tooltips; improved business visibility through customer and sales trend analysis.

Supply Chain & Inventory Analytics Dashboard

- Designed a Power BI dashboard to monitor inventory, suppliers, and fulfillment performance.
- Built KPIs for Inventory Turnover, Fill Rate, and Supplier Performance with DAX measures and Power Query transformations.
- Created executive scorecards with dynamic filtering and drill-through analysis to support inventory planning.
